Section 2: Insuring Provisions

Covered Employees

All active employees insured immediately prior to January 1, 1995 by The Manitoba Teachers' Society Plan Document dated February 1, 1989, shall automatically be insured according to the terms and provisions of this Plan document.

For all new employees hired by a participating employer after January 1, 1995 coverage under this Plan shall be mandatory, provided said employees satisfy the meaning of Employee, meet the Insuring Requirements and fall within an Eligible Employee Group, as defined in Section I of this Plan Document.

Effective Date of Coverage

All eligible employees shall be covered immediately from their first day of active employment with an Employer, or as soon as they meet the Insuring Requirements as defined in Section I of this Plan document. If an employee is absent from work, for any reason, on the date their employment was set to commence, then coverage under this Plan will not take effect until that employee first reports to active work

Reinstatement of Coverage

Any eligible employee, whose coverage previously terminated as per the article *Termination of an Employee's Insurance* of this Plan Document must return to active employment for a period of 20 working days before coverage will become effective. This condition will not apply to employees whose coverage terminated at the end of their employment contract.

**Changed June 1, 2001. See Appendix B.*

Pre-existing Conditions

1. "Pre-existing condition" means: disability arising from illness or injury for which an employee has obtained medical care during the 90 day period before their coverage became effective (the effective date of coverage or, the date of reinstatement of coverage). Medical care is considered to be obtained when an employee consults a physician, is diagnosed by a physician, uses medication on the advice of a physician, or receives other medical services or supplies.
2. A pre-existing condition will not render an employee ineligible for coverage if;
 - a) the employee has been continuously insured for one year; or
 - b) the employee has not had medical care for the illness or injury for a continuous period of 90 days ending on or after the date the effective date of coverage
 - c) the employee is returning to work following a Maternity or Parental Leave of Absence
 - d) the employee, whose first day of active employment with an Employer occurs within 20 working days of their previous employment contract ending

**Added June 1, 2007.*

Long Term Disability Benefits Plan

Late Applicants

Any eligible employee not covered by The Manitoba Teachers' Society Plan Document dated February 1, 1989 and who was not automatically covered by the terms and conditions of this Plan Document on its effective date may subsequently become covered once all of the following conditions are satisfied:

1. application for coverage must be made by the eligible employee;
2. evidence of insurability, satisfactory to the DBP Committee must be submitted.

Coverage for late applicants will take effect on the date the application is approved by the DBP Committee, provided the employee is then actively at work. The DBP Committee may also deny coverage at its sole discretion.

**Amended June 1, 2008. See Appendix B.*

Long Term Disability Benefits Plan

Premium Payment

Any employee group participating in this Plan acknowledges that coverage for eligible new employees within their group is mandatory and that continued coverage for the group is extended subject to the acceptance of this condition. Implicit with this acceptance is acceptance of the condition that where an employee contribution to premium is one of the terms agreed to for entry of that employee group into this Plan, then that condition shall be binding on each of the eligible employees within that employee group and those eligible employees are therefore required to make the necessary premium contribution. The DBP Committee reserves the right to declare ineligible all employees within an employee group should any member of that employee group not pay the required premium.

**Amended June 1, 2008. See Appendix B.*

Changes in Amounts of Insurance

Changes in an employee's amount of insurance will take effect immediately, except in the following situations:

1. No change will take effect during a period of disability, except as noted in 2. below;

**Changed June 1, 2001. See Appendix B.*

2. Changes in insurance due to changes in monthly earnings under a negotiated contract will take effect on the date the contract becomes effective, but only when the negotiated contract has an effective date which is retroactive to a period of time prior to the expiry of the waiting period.

Actively at Work

Means the employee is not disabled and actually reports to work at the normal place of employment and performs their normal duties.

Termination of an Employee's Insurance

An employee's insurance will terminate on the earliest of the following dates:

1. the date that this Plan document terminates;
2. the due date of the first premium to which the employee has not made a required contribution;
3. the date the employee ceases to be eligible according to the terms of this Plan document;

**Changed October 1, 2010. See Appendix B.*

4. (a) for employees who are contributors to the Teachers' Retirement Allowances Fund (TRAF) or The Manitoba Teachers' Society Staff Pension Fund, the last day of the month in which the claimant attains age 60 or the last day of the month in which the claimant accumulates 30 years of pensionable service as determined by TRAF, including service as a public school teacher in Canada whichever is later, but in no event any later than 80 regular working days prior to the employee's 65th birthday,
(b) for all other employees, 80 regular working days prior to the employee's 65th birthday;
5. the date the employee's employment terminates, except that a teacher whose employment terminates on June 30 for reasons other than retirement, shall be extended coverage until August 31 of the same year;
6. on the date an employee retires;

Long Term Disability Benefits Plan

7. on the date an employee is granted a leave of absence by the employer for either a type of leave or duration of leave not considered eligible under the terms of this Plan document;
8. 31 days after the date that an employee ceases to be disabled, according to the terms of this Plan document, if the employee fails to return to work following a period of disability satisfactory for the receipt of benefits under the terms herein;
9. 31 days following the expiration of the Waiting Period for an employee who is absent from work due to an accident or illness, where that accident or illness does not qualify the employee for benefits under the provisions of this Plan document; or
10. in the case of a non-teaching employee who is laid-off on June 30, and the date of recall falls after the commencement of the subsequent fall term; coverage will terminate effective with the June 30 lay-off and shall not be reinstated until the employee returns to active employment.
11. the date that an employee, on a leave of absence, becomes substantially employed, by an employer not covered in Appendix A and where employment is not part of a vocational rehabilitation plan approved by the Long Term Disability Benefits Plan.

**Added June 1, 2001.*

Special Rules Covering Criminal Offenses

Benefit payment will not be made for a period of disability where the disability is due to, or results from, the commission or attempted commission of a criminal offense. An employee who becomes disabled shall be entitled to receive benefits under the terms of the Plan, but such benefit payment will terminate immediately when it is determined that the employee was guilty of an offense if it is determined that the disability arose directly or indirectly from the commission or attempted commission of the offense. In that event, coverage will be deemed to have ceased on the last day worked and no further benefits will be payable to that employee unless the employee returns to work and again meets all the terms and conditions of the Plan. The DBP Committee reserves the right to pursue repayment of benefits paid where the disability arose directly or indirectly from the commission or attempted commission of a criminal offense.

**Amended June 1, 2008. See Appendix B.*

Eligible Leaves of Absence

Notwithstanding anything to the contrary contained in the Termination of an Employee's Insurance provision, coverage for all employees shall be continued and premiums must be paid if an employee is granted a leave of absence and the leave period does not exceed a total of 24 months. Full coverage shall be maintained and premiums must be paid for the duration of a teacher assignment with the Department of National Defense.

**Added June 1, 2001.*

Section 3: Benefit Provisions

Assessment Authority

The Long Term Disability Benefits Plan has full authority for the assessment of a person's entitlement to benefits.

Disability

The benefits under this Plan Document are for disability periods that start while a person is insured.

During the Initial Assessment Period

During the initial assessment period, an employee shall be considered disabled when that employee, because of illness or injury, is unable to perform that employee's occupation in a manner consistent with the regular and customary requirements of that occupation.

After the Initial Assessment Period

After the initial assessment period, a person is considered disabled if illness or injury prevents that person from being gainfully employed.

Gainful Employment

Gainful employment means work:

1. a person is medically able to perform;
2. for which the person has at least the minimum qualifications;
3. that provides income of at least 60% of pre-disability gross monthly earnings adjusted for inflation; and
4. that exists either in Manitoba or the current province or territory of residence.

The availability of work will not be considered in assessing disability.

Disability Period

A disability period is:

1. the waiting period; plus
2. the benefit period.

Long Term Disability Benefits Plan

Waiting Period

The Waiting Period starts when the employee first becomes disabled and lasts, if disability is continuous, for the period specified in the Table of Insurance.

If disability is not continuous, the number of days the employee is disabled will be accumulated to satisfy the waiting period as long as:

1. the employee is disabled and absent from work for at least 80 of the first 100 regular working days following the first day's absence from work for reason of disability; and
2. the disabilities which cause an absence from work arise from the same illness or injury.

Benefit Period

A benefit period is:

1. the period of time after the waiting period during which the person is continuously disabled and meets all the terms and conditions of the Plan; plus
2. if the disability is not continuous, any period of time during which the disability is considered to be a recurrence.

**Changed June 1, 2005. See Appendix B*

Recurrence

After the waiting period, a disability is considered a recurrence if:

1. It arises from the same illness or injury and starts within 6 months after the previous disability ends; or
2. It arises from an unrelated illness or injury and starts within 1 month after the previous disability ends.

Monthly Earnings

Monthly earnings for benefit calculations are 1/12th of the person's annualized insured earnings in effect the day before the disability benefit period started.

Monthly Earnings for Part-time Teacher Contracts

Teachers employed on a part-time contract will have their Benefit Amount calculated based on their pre-disability annualized earnings, divided by 12. This rule will apply equally to teachers employed on a part-time contract, who work full-time for a portion of the school year, in order to complete the terms of their contract of employment.

Leave of Absence

If an employee is on a leave of absence when disability commences, then monthly earnings will be based on the annual earnings in effect on the day before the leave started.

Overtime, Bonuses and Commissions

Overtime, bonuses and commissions will not be included in monthly earnings.

Long Term Disability Benefits Plan

Disability Income Benefits

A disabled person is entitled to income benefits after the waiting period ends and for as long as the benefit period lasts. No disability income benefits are payable for the waiting period itself.

Amount Payable

The amount payable is the sum of:

1. the benefit amount less the reductions, if any, required under the offset and rehabilitation incentive provisions, plus
2. the pension contribution benefit, if any.

Pension Contribution

The pension contribution benefit for a member of The Manitoba Teachers' Society Staff Pension Fund is the percentage of monthly earnings required for contribution to the fund.

**Changed June 1, 2004. See Appendix B.*

Other Income

The income used in the offset provision is the income payable for the same period as the disability income benefit under this Plan document.

Except for retirement benefits, all income is considered payable when a person is entitled to it, whether or not it has been awarded or received. If the person was instructed to make an application for benefits, but does not comply, the Long Term Disability Benefits Plan will have the right to estimate it according to the terms of any plans or legislation involved. Retirement benefits are considered payable when they are actually received. If income is payable in a lump sum, the amount used will be the portion payable for loss of income during the benefit period.

Offset Provision

Under this provision, the person's disability income benefit is reduced by the following income:

**Amended May 1st 2021. See Appendix B*

**Amended December 1, 2016. See Appendix B.*

1. Disability and/or retirement benefits to which the employee is entitled under:
 - (a) the net amount of Canada Pension Plan Disability and/or Retirement Benefits defined as the gross benefit less federal and provincial income tax;
 - (b) the Quebec Pension Plan; or
 - (c) a plan in another country for which there is a reciprocal agreement with the Canada or Quebec Pension Plan;

**Amended June 1, 2006. See Appendix B.*

except for increases that take effect after the benefit period starts, or benefits payable to the employee for dependents of that employee.

Long Term Disability Benefits Plan

2. Benefits under any Workers Compensation Act or similar law except for:
 - (a) permanent partial disability awards that were payable for each of the 12 months before a disability period; and
 - (b) benefits related to employment with another employer.
3. Loss of income disability benefits available through legislation, except for Employment Insurance benefits.
4. Where permitted by law, automobile insurance benefits paid or payable for loss of income. Such benefits will include those specifically mandated by the terms of coverage or legislation, as well as any other loss of income benefits included as part of a final settlement of claim.
5. Any lump sum early retirement incentive paid by an employer, except that only 50% of the lump sum settlement will be offset over the lesser of 12 months or the remaining period of disability payable under the terms of this Plan.
6. Subrogation
Where disability income benefits become payable with respect to a claimant who has a right to recover damages from any individual, corporation or organization, the Plan will be subrogated to the rights of recovery of the claimant against such individual or organization to the extent that the Disability Income Benefits are paid or payable whether or not the claimant achieves full recovery of their loss.

In order to qualify for or maintain Disability Income Benefits, the claimant may be required at the discretion of the plan to sign a subrogation agreement if requested to do so by the Plan.

Whether or not a subrogation agreement has been signed, the claimant shall reimburse the Plan up to the amount of any benefit paid or otherwise payable under the Plan out of the damages recovered, which amount shall include any lump sum or periodic payments on account of past, present or future loss of income.

The claimant shall notify the Plan as soon as any action is commenced against any third party which involves a claim which would otherwise be payable under this benefit, and shall provide the Plan information including copies of all relevant documentation, of any judgment or settlement of such claim. Unless the prior approval of the Plan has been obtained, no such settlement of any claim against the third party shall be binding upon the Plan.

In the event a lump sum payment is made under a judgment or a settlement for loss of future income or for future periodic lump sum benefits which might otherwise be payable under this Plan, and the claimant fails to reimburse the Plan to the extent of the benefits paid, no benefits will be paid by the Plan until such time as the disability income benefit which would otherwise be payable under this Plan equals the amount received under the judgment or settlement.

If the third party damage claim is settled prior to trial of the action, the Plan shall be reimbursed in any amount that reasonably reflects the benefits that would otherwise be payable under this Plan, on account of past, present and future income without regard to the terms of the settlement that may have been agreed to by the claimant and the third party.

**Added June 1, 2006.*

Long Term Disability Benefits Plan

7. Employment income or disability benefits related to any employment, except for:
 - (a) any amount that is related to employment other than with the employer and that was payable for each of the 12 months before a disability period
 - (b) income from an approved rehabilitation program. This income is considered under the rehabilitation incentive provision.

Rehabilitation Incentive Provision

Earnings received from an approved rehabilitation program are not used to reduce a person's income benefit unless those earnings, income from this Plan, and the income described under the offset provision would exceed:

1. for taxable benefits, 100% of the claimant's monthly gross earnings
2. for non-taxable benefits, 100% of the claimant's take-home pay

If it does, the disability income benefit is reduced by the amount in excess of 100%.

3. *Where claimants are beyond 24 months of benefit and have received an Administrative approval when:*
 - a) *They have reached a point of maximum medical recovery*
 - b) *That rehabilitation efforts have been exhausted in extending their return to work*
 - c) *That their Case Manager and the Disability Claims and Rehabilitation Administrator deem them to be permanently disabled.*

A claimant's income from the portion of Return to Work and the Disability benefit can exceed 100% of pre-disability income but cannot exceed 100% of that claimant's current FTE salary.

(Revised Sept 1st 2011)

Take-Home Pay

Take-home pay means the person's monthly earnings less deductions for federal and provincial income taxes, employee EI contributions, employee CPP contributions plus employee contributions to the Teachers' Retirement Allowances Fund or any other pension plan to which the employee contributes as part of employment with the employer. The deductions for taxes are the amounts an employer would be required to withhold from an employee's monthly earnings assuming taxable income equals annual earnings less the basic personal exemption. The personal exemption and tax rates used are those in effect the day before the disability or leave of absence started.

Inflation Protection

Inflation Protection is provided according to the terms shown below.

**Amended June 1, 2002. See Appendix B.*

Assessment

In assessing a person's ability to be gainfully employed, the Long Term Disability Benefits Plan will multiply the claimant's pre-disability monthly earnings by the Consumer Price Index factor.

Recalculation

The amount payable will be recalculated for inflation protection on September 1st next following the receipt of 24 months of benefits. At this time the following amounts will be multiplied by the Cost-of Living adjustment factor:

1. The benefit amount; and
2. The income limit under the rehabilitation incentive provision.

Consumer Price Index Factor

The Consumer Price Index factor for an assessment or recalculation date is the ratio of:

1. The Consumer Price Index as of the April 30 preceding the September 1 implementation date;
to
2. The Consumer Price Index as of 12 months before the date determined in 1. above.

Long Term Disability Benefits Plan

The Consumer Price Index means the all-item Consumer Price Index for Canada.

Cost-of-Living Adjustment Factor *See Table in Appendix B.*

The Cost-of-Living Adjustment factor for a recalculation date is the lesser of:

1. 50% of the Consumer Price Index factor for that date; and
2. 1.03 compounded annually for the 12-month period from start of the disability period to the recalculation date.

Changes to the Consumer Price Index

If there is a change in the method of calculating the Consumer Price Index:

1. The Consumer Price Index will be used for the period preceding the change; and
2. An appropriate measure of inflation which has been determined by the DBP Committee will be used for the period after the change.

**Amended June 1, 2008. See Appendix B.*

Benefit Guarantee

The terms of the Inflation Protection clause will never be used to reduce an employee's Benefit Amount.

Rehabilitation Benefits

Rehabilitation Program

A rehabilitation program means a training or work related activity that:

1. can be expected to facilitate a return to the disabled person's own occupation or other gainful employment;
2. provides opportunities that are designed to prevent disability claims ♦ to any member of the Plan; or
3. is recommended or approved by the Long Term Disability Benefits Plan.

In considering whether or not a rehabilitation program is appropriate, the Long Term Disability Benefits Plan will assess such factors as the expected duration of disability, and the level of activity required to facilitate the earlier possible return to employment. For teachers, a rehabilitation program could include working less than full time in their previous teaching capacity, full or part-time teaching in a different teaching position, or full or part-time work or trial employment in any reasonable occupation. For non-teaching employees a rehabilitation program could include full or part-time work in their pre-disability employment or any other reasonable full or part-time work or trial employment. These statements are not intended to limit in any way a rehabilitation program that may be approved for any disabled employee.

**Changed June 1, 1996. See Appendix B.*

♦ This does not refer to the Early Intervention Program

♦ If a person does not participate or cooperate in a rehabilitation program that has been recommended or approved by the Long Term Disability Benefits Plan, that person will no longer be entitled to benefits on either a current or future basis for any disability existing during the current Benefit Period. Unless otherwise authorized, disabled persons must make themselves available for rehabilitation programs in the province of Manitoba. The Long Term Disability Benefits Plan may consider a rehabilitation plan in other parts of Canada subject to the Plan's ability to make arrangements deemed reasonable.

**Added June 2001.*

Time Commitment

Long Term Disability Benefits Plan

The duration of a rehabilitation program must be approved by the Long Term Disability Benefits Plan. Once approved, a person's benefit period is guaranteed for that duration as long as that person continues to participate and cooperate in the program.

Re-employment Benefit

If a rehabilitation program involves training rather than employment, the benefit period will be extended to the end of the Individual Written Rehabilitation Plan (IWRP).

**Changed June 1, 2001. See Appendix B.*

Expense Benefit

The Long Term Disability Benefits Plan may authorize payment for expenses, other than usual employment expenses, associated with a rehabilitation program.

Expenses claimed under this provision must be pre-authorized by the Long Term Disability Benefits Plan.

Survivor Benefit

**Amended June 30, 1996. See Appendix B.*

Reconciliation of Earnings

Teachers, because of the terms of their employment, earn their annual salary over a 10-month period. How they receive that salary from their employer is not always consistent with the basis in which it is earned. Left unrecognized this could result in either an overpayment or underpayment from the terms of this Plan. To prevent this occurrence, a reconciliation of salary will be conducted on the June 30 immediately following the commencement of benefits, and on the date benefits from this Plan terminate. Following reconciliation, and only if necessary, an adjustment will be made to the Benefit Amount which would otherwise be payable, to reflect the actual amount of lost earnings. Should the reconciliation show that an underpayment from this Plan has occurred, the Benefit Amount will be increased by a proportionate amount. Conversely, where an overpayment is identified, the Benefit Amount will be reduced by a proportionate amount.

General Limitations

No benefits will be paid for:

Rehabilitation Programs

1. Any period in which the person does not consent to, participate in, or cooperate in any independent medical or vocational assessments deemed necessary by the Long Term Disability Benefits Plan or any other investigations deemed necessary by the Long Term Disability Benefits Plan.

**Changed June 1, 2006. See Appendix B.*

Substance Abuse

**Amended to delete in 1999. See Appendix B.*

Reasonable and Customary Treatment

3. Any period in which the person does not participate or cooperate in a reasonable and customary treatment program.

A reasonable and customary treatment program is systematic treatment that:

- (a) is performed or prescribed by a legally licensed doctor of medicine; and
- (b) is of the nature and frequency usually required for the condition involved; and
